Subject: Regarding all things as a puff of smoke

Good day all. All things to our senses, particularly to our eyes, seem real as if they were actually existent. And this is confirmed by our other five senses ~ our ears which hear, our nose which smells, our tongue which tastes, our body which touches, and our mind which analyzes and interprets the phenomena. Yet what if these six senses themselves were not real, but were merely a filter in the mind of the soul, engineered by the Father—in the illusion of space and time—to give the soul the temporal and spatial experience that phenomena were actually existent? And what if the Father, in engineering the filter, designed it as such as a temporary veil between the illusion of the senses and the Reality of the Father ~ and that should anyone see the Truth of the illusion, and cultivate a mind that does not make *real* the illusion, they would immediately ascend into the mind of the Reality of the Father? This is the path of the mind of the saints, who see past the illusion of the temporary veil, and who cultivate a mind that does not make real the illusion, who are intent on the mind of the Reality of the Father, and not on the illusion of the seeming reality, which is nothing more than a puff of smoke! Thus everything perceived by the six senses must be understood to be nothing more than a dream, dreamed by the dreamer through the dreaming filter, for those still intent on dreams. Amen.

And may you all be blessed in our Father's love and grace.
